WORK EXPERIENCE

03/12/2018 – 10/06/2020 Bucharest, Romania

Data entry operator Printre Carti

Checked/edited the existing data of the products and put them back in stock. Insert new books to the database. Checked the book inventory. Looked after the books from the order and prepared them for dispatch.

21/12/2020 – CURRENT Bucharest, Romania

Web developer PestControlExpert

Magento 1 & Magento 2 Developer

1. **Checkout Update & Delivery Estimation:** Enhanced the checkout process for Magento 1 and improved delivery estimation for both Magento 1 and Magento 2, leading to a more efficient customer experience.
2. **Design Improvements:** Updated and refined design elements across multiple pages, creating new landing pages from Figma models to improve user experience.
3. **Header and Footer Updates:** Redesigned and standardized the header and footer across all pages to ensure a consistent user experience and improved navigation.
4. **Module Development:** Developed and updated modules to extend the functionality of online stores.

WordPress & bbPress Developer

1. **Blog Category Enhancement:** Improved the layout and functionality of blog category pages, resulting in better content accessibility and user navigation.
2. **Custom Calendar Development:** Created a custom calendar for each category and allowing admin update it from each category.
3. **Plugin Development:** Developed new plugins and updated existing ones to expand WordPress functionality.
4. **Header and Footer Updates:** Implemented updates to the header and footer for design consistency and improved navigation throughout the forum.
5. **Post Page Updates:** Refined the post page design and implemented small-scale changes to enhance user interaction and discussion engagement.

Next.js Developer

1. **API Routes & Features:** Implemented dynamic API routes and new features for two applications, improving data flow and functionality.
2. **Database Integration with Prisma:** Created and updated database tables, enabling robust CRUD operations and seamless data handling across the applications.
3. **Library Utilization:** Utilized libraries such as Next Auth, Axios, Moment, React Email, React Hook Form, TanStack React Query, TanStack React Table, and Zod/Yup to enhance application capabilities and user experience.
